Response to Amendment

1. This office action is in response to applicant's amendment received on 5/07/06.
Claims 1 – 17 are pending on this application. Claims 1 and 15 are independent claims.

Allowable Subject Matter

2. Claims 1 - 17 are allowed.
3. The following is an examiner's statement of reasons for allowance:

With respect to claims 1 and 15, the prior art of record disclose if all memory cells selected to store the first set of data bits have reached or exceeded the first predetermined threshold voltage level, and determines whether any memory cell has reached or exceeded a second predetermined threshold voltage level and inhibits programming of any memory cell that has reached or exceeded the second predetermined threshold voltage level and continues programming of uninhibited memory cells. However, the prior art fails to teach applying to a terminal of two or more cells in the first set of cells second phase programming pulse adapted to induce relatively greater threshold voltage changes in cells having less stored charge than in cells having relatively more stored charge.

Dependent claims 2 – 14 and 16 – 17 are allowed based on the allowance of the respective independent claims 1 and 15 above.

4. The prior art made of record and considered pertinent to the applicant's disclosure does not teach or suggest the claimed limitations. Lutze et al., taken individually or in combination, do not teach the claimed invention of applying the second

phase programming pulses on two or more cells in the first set of cell to induce relatively greater threshold voltage changes in cells having less stored charge than in cells having relatively more stored charge, in combination with other limitations.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".

Prior art

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
